# WARNING!

Amazon.com, Walmart.com, and other 3rd party websites have counterfeit products listed. If your patient purchases from these sites ensure they are buying from MacuHealth for authentic product, we sell for MSRP and do not discount.

MacuHealth sells on these platforms in order to maintain brand protection and price stability. When we identify a counterfeit seller it takes a few days for Amazon or Walmart to respond and remove the seller.

- Authentic MacuHealth can only be guaranteed when purchasing from an eye doctor or MacuHealth directly.
- Authentic product sold online will show sold by MacuHealth and is listed at MSRP.
- We don't know what is inside the counterfeit pills.
- The listing showing sold by anyone other than MacuHealth is counterfeit at any price.
- These 3rd party sites force all sellers to share 1 listing, counterfeits included.

Walmart.com

Sold by MacuHealth
Fulfilled by Walmart

Amazon.com

Ships from Amazon
